

# Connecting

## The Alliance of Professional Women

is a **multi-faceted organization** that develops programs and activities that address the "**whole woman**" and the many areas of our busy lives. The following themes help us encapsulate what we do.

### Alliances

Opportunities to develop personal and professional alliances are the core of The Alliance. These alliances create meaningful opportunities for business and social relationships. Many women in The Alliance develop lifelong friendships and support networks with other women of diverse professional backgrounds who share common energies, interests and goals.

### Leadership and Personal Development

The Alliance provides members with opportunities for personal and professional growth. Members are exposed to new ideas, experiences and skills through interactions with women from different professions and at different stages in their lives. The Alliance also provides opportunities to develop and hone leadership skills.

### Community Activism

"**Women helping women**" is an important feature of The Alliance. Through fundraising and hands-on volunteer activities, The Alliance encourages volunteerism and mentoring of both members and others in the community. The Alliance works with other community organizations to support women and girls, and help them move toward their goals of becoming productive and self-sufficient citizens.

## Women Personally, Professionally and Philanthropically

### Educating and Informing

The Alliance sponsors educational programs on issues of interest and presents speakers who inspire and motivate. The Alliance voices members' views on current issues, collecting and disseminating information about people, events and issues of importance to our members.

**Connecting Women**  
**Personally,**  
**Professionally and**  
**Philanthropically**

# Connecting Women

Personally, Professionally  
and Philanthropically

## Get Connected. Join The Alliance of Professional Women.

For over 20 years, professional women in Denver have joined The Alliance of Professional Women to connect.

- **Connecting** to explore business opportunities, share information and learn
- **Connecting** to build personal and professional networks
- **Connecting** in our community with volunteer opportunities
- **Connecting** globally to help women around the world

Who are we? We are a group of professional women in the Denver metropolitan area. We are proud of our diverse membership base which represents a broad spectrum of professions such as attorneys, accountants, bankers, life coaches, personal chefs, healthcare professionals, authors and human resource directors. Our members are women who are just starting out in their careers, retirees, small business owners and women who work for some of the largest firms in Denver.

Women join **The Alliance of Professional Women** for many different reasons. The Alliance of Professional Women is a "soft" **networking** organization. We invite you to get to know a group of fabulous women, build relationships with them, and use that foundation as a means to network personally and professionally.

The Alliance of Professional Women is a **relationship-based** networking organization.

The Alliance of Professional Women is unique among women's organizations in Denver. We are a "one-stop shop" for professional networking opportunities and referrals, and we provide our members with:

- **Support** from other women in a vast array of professions and career stages through our **Networking Luncheons, Events** and our **Roundtable Program**.
- **Opportunities** to volunteer and give to support women and girls in Denver and internationally through philanthropic connections with our **Alliance Foundation**. The Alliance provides **Scholarships** to women attending college in Denver and funds a **Village Bank**, a microcredit program that provides life changing small business loans to impoverished women in developing countries.
- **Information** on current and pending state and national legislation affecting women.
- **Educational** opportunities through our **Business After Hours** events and **Continuing Education** for-credit courses.
- **Information** on cultural and philanthropic goings-on in the Community, as well as local businesses, members and Alliance events through our monthly newsletter, The Communique.
- **Opportunities** to showcase your business in our membership directory as well as through advertising in our monthly newsletter with an e-distribution to over a thousand local women. Members can also sponsor one of our monthly Networking Luncheons.
- **The opportunity** to lead and be a part of a legacy for supporting women.

Make no mistake, however, along with all this networking, marketing and philanthropy is also a lot of **FUN!** We have monthly **Networking Luncheons** at restaurants throughout the Denver area (we vary locations to accommodate members all over the city). We host **Business After Hours** events like **Spa Night, Wine, Cheese and Chocolate Tasting**, and feature a variety of speakers and panel discussions. Our **Alliance Foundation** also hosts **fundraisers** each year with themes such as **City Lights Boardwalk Nights** and **Passport to Italy**.

Truly the best way to get a "feel" for the Alliance, its members, and what we're all about is to attend one of our monthly **Networking Luncheons**.
